

Re: Docket# 98N-1038, "Irradiation in the Production, Processing,
and Handling of Food."

I want the FDA to continue prominent labeling of food that has
been treated with irradiation. The label should be conspicuous and
include the logo for irradiation.

Your Signature: Deu Parks

Additional comments: Consumers should have

the information on food products so that
they can make a choice whether they want to
not consume irradiated food.
